# Overview

**Introduction to regulatory compliance**

**Microsoft's privacy principles**

**The Microsoft Service Trust Portal**

# Introduction to Regulatory Compliance

# Regulatory Compliance for IT Professionals

Set of digital security requirements and practices

Ensure that a company's business processes are secure

Usually done to satisfy a third party

- Government
- Security framework
- Client

# Popular IT Compliance Standards and Regulations

**GDPR**

**HIPAA**

**The National Institute of  
Standards and Technology (NIST)**  
*EX: NIST SP 800-171*

**PCI-DSS**

# Example Compliance Needs

**Granting individuals, the right to access their data at any time**

**Granting individuals, the right to correct or delete data about them if needed**

**Introducing retention periods that dictate a minimum or maximum amount of time data should be stored**

**Enabling governments and regulatory agencies the right to access and examine data when necessary**

**Defining rules for what data can be processed and how that should be done**

# Compliance in the Cloud

Overall compliance score

**Your compliance score: 75%**

**12159/16167 points achieved**

Your points achieved ⓘ  
**0** / 4008

Microsoft managed points achieved ⓘ  
**12159** / 12159

Compliance score measures your progress towards completing recommended actions that help reduce risks around data protection and regulatory standards.

**Security in the cloud is a partnership**

- So is compliance!

**Part of the requirements will be done by Microsoft**

- Microsoft will provide the documentation/proof of it for you

**A lot of it depends on you**

# Microsoft's Privacy Principles

# Microsoft's Privacy Principles

You're entrusting the provider with one of your most valuable assets

- *Your data*

Microsoft has six key privacy principles when making decisions around data

# Microsoft's Six Key Privacy Principles

## Control

We will put you in control of your privacy with easy-to-use tools and clear choices.

## Transparency

We will be transparent about data collection and use so you can make informed decisions.

## Security

We will protect the data you entrust to us through strong security and encryption.

## Strong legal protections

We will respect your local privacy laws and fight for legal protection of your privacy as a fundamental human right.

## No content-based targeting

We will not use your email, chat, files or other personal content to target ads to you.

## Benefits to you

When we do collect data, we will use it to benefit you and to make your experiences better.

# **The Microsoft Service Trust Portal**

# Service Trust Portal

**The Service Trust Portal is a single location where you can find audit reports, Pen Tests, Security Assessments, and more information on how Microsoft manages security, privacy and compliance.**

<https://servicetrust.microsoft.com/>

**Free offering**

**Some documents do require you to sign in your Microsoft 365 account**

**Signing in also gives you access to the “My Library” feature**

Allowing you to save documents in an easy location

Also allows you to get updates to those documents

## Documents & Resources

**Compliance Manager**

Compliance Manager makes it easy to perform risk assessments of Microsoft's cloud services. Use Compliance Manager to manage your organization's compliance activities from implementation to reporting.

**Pen Tests & Security Assessments**

View reports from independent third-party penetration tests and security assessments of Microsoft's cloud services

**Azure Blueprints**

Define a repeatable set of Azure resources that implement and adhere to your organization's standards, patterns, and requirements and rapidly build new environments with a set of built-in components to speed up development and delivery

**White Papers, FAQs, & Compliance Guides**

Review the wealth of available security implementation and design information with the goal of making it easier for you to meet regulatory compliance objectives by understanding how Microsoft Cloud services keep your data secure
