# Overview

## Overview

- Microsoft Intune
- Intune product family
- Management portals
- Licensing options

# Intune Fundamentals

Microsoft

**“Intune is a cloud-based service that focuses on mobile device management (MDM) and mobile application management (MAM)”**

# Mobile Device Management vs Mobile Application Management

## MDM

- Capable of managing Windows
- Management via MDM-provider built into devices
- May include App Management
- Also supports iOS, Android, Mac and Linux

VS

## MAM

- Focusses on App Management
- Management via MAM-provider built into apps
- Most Microsoft apps supported
- Allows administrators to manage the app itself
- MDM not required

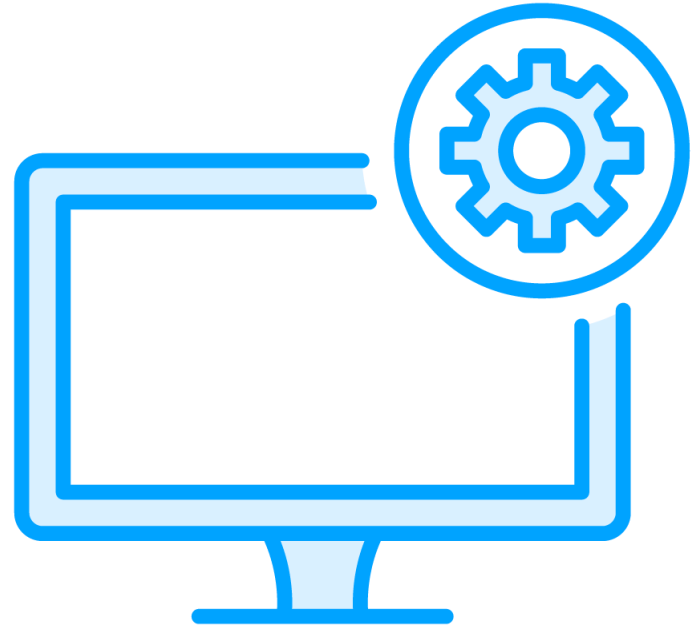

# Microsoft Intune Product Family

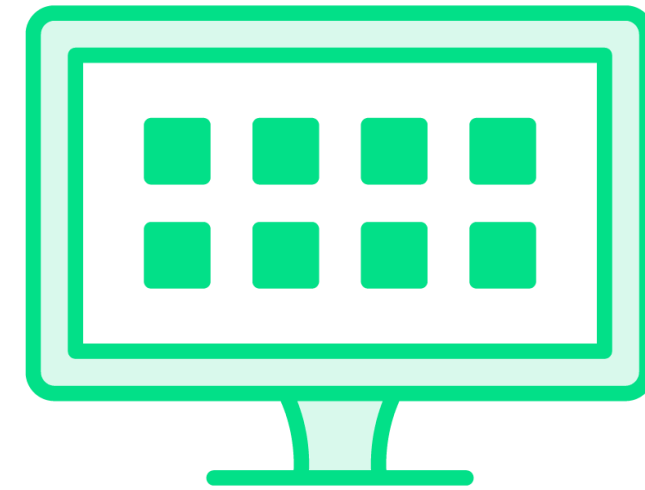

# Microsoft Intune vs Microsoft Intune Product Family

## Microsoft Intune

Microsoft's cloud based endpoint management platform

## Microsoft Intune product family

Microsoft's growing suite of endpoint management products under the Microsoft Intune branding

# **Microsoft Endpoint Manager family**
