### Overview

### Introduction to SharePoint Online

- Internal communications capabilities
- Document management with SharePoint

### Introduction to SharePoint Online

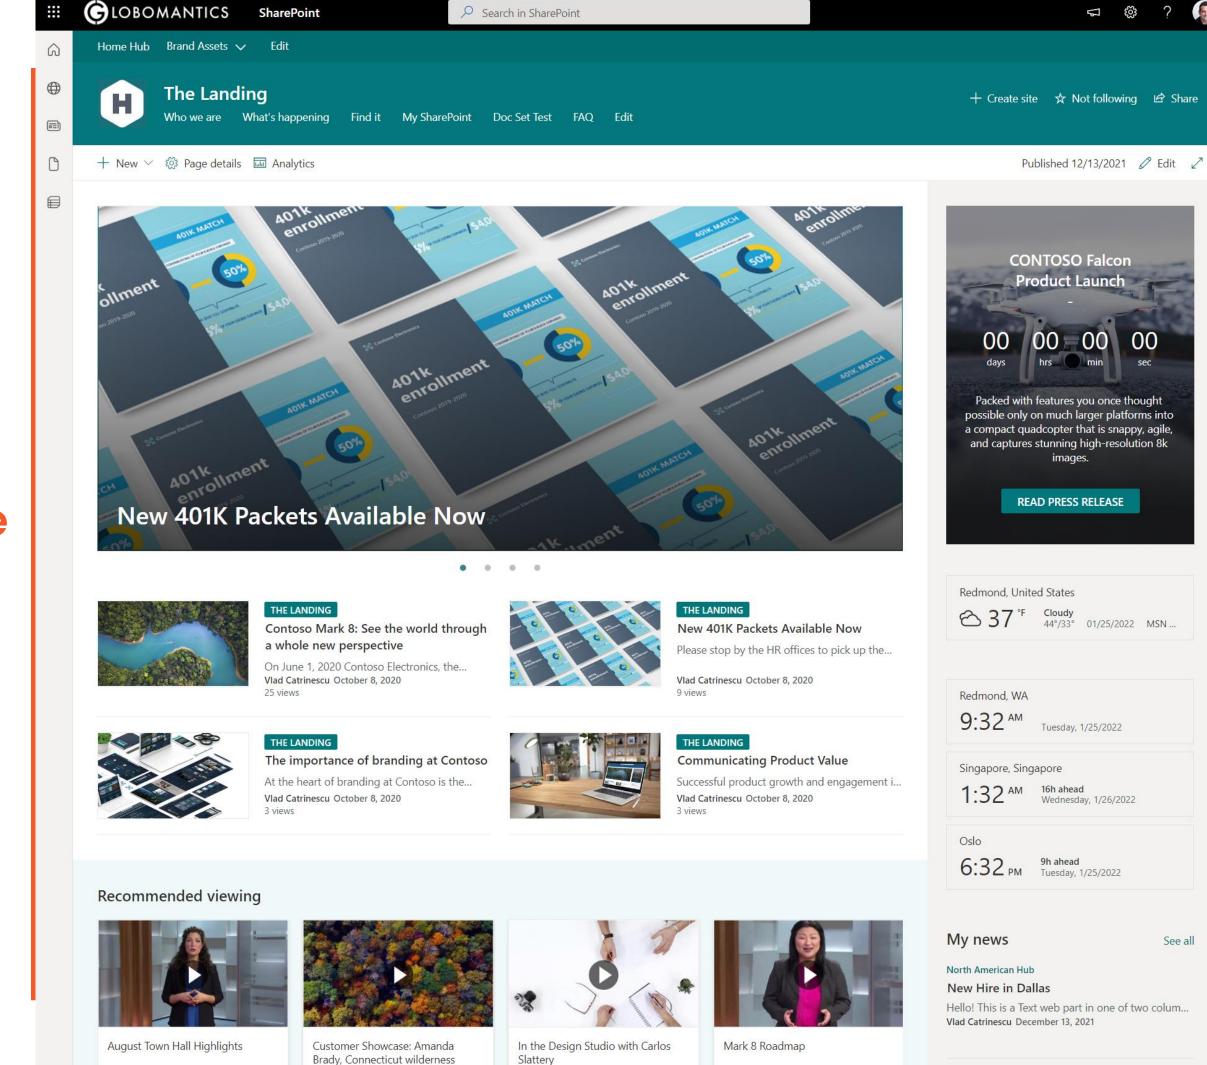

# Central location for Company communications Team collaboration

In SharePoint Online we create sites for each topic

Intranet

**Projects** 

**Departments** 

### Two Types of Sites

### **Communication Sites**

Publish dynamic, beautiful content to people in your organization to keep them informed and engaged on topics, events, or projects.

### **Team Sites**

Share documents, have conversations with your team, keep track of events, manage tasks, and more with a team site

# SharePoint allows you to create multiple document libraries

## Add metadata to your documents

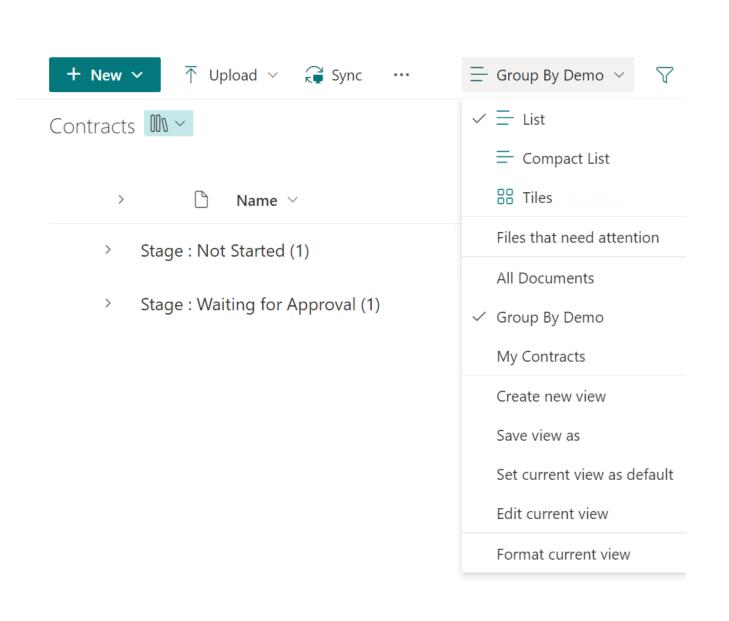

Better findability
Create different views
Implement workflows

# Document Management Capabilities

#### Demo Docs

	Name ∨	Modified $\vee$	Modified By $\vee$	$+$ Add column $\vee$
w	Blog Post preview.docx	July 26, 2021	Provisioning User	Single line of text
W	Globomantics Purchasing Permissions.docx	A few seconds ago	Microsoft CDX	Multiple lines of text
W	Credit Cards.docx	July 26, 2021	Provisioning User	Location
W	Customer Accounts.docx	July 26, 2021	Provisioning User	Number Yes/No
X	Customer Data.xlsx	July 26, 2021	Provisioning User	Person
<b>P</b>	Q3 Sales and Marketing Expense Report Au	July 26, 2021	Provisioning User	Date and time
w	Q3_Product_Strategy.docx	July 26, 2021	Provisioning User	Choice
W	Sales Memo.docx	July 26, 2021	Provisioning User	Hyperlink
				Currency Image Lookup More Content type Show/hide columns

### Customize Views to Fit Your Needs

# You can create multiple views to see content that is important to you

- Groupings
- Filters
- Totals
- & More

### External Sharing

Multiple options to securely share content with external users

**Authenticated or anonymous** 

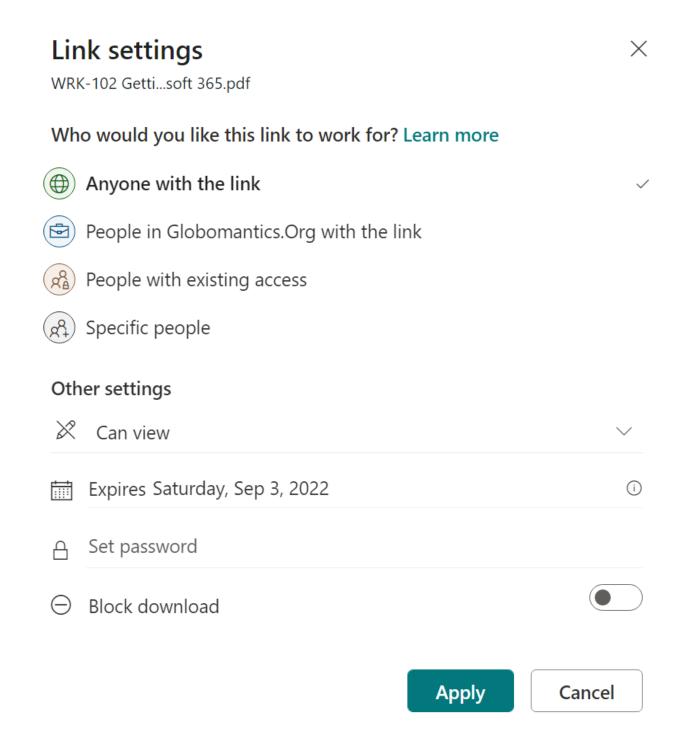

Share as much (or as little) as you want

**Full site** 

Library

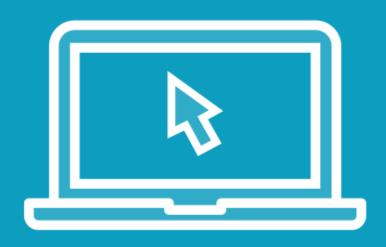

**Folder** 

**Document** 

### Demo

**SharePoint Online in action!** 

### Conclusion

#### Internal communications with SharePoint

- Communication sites
- News & Pages
- Roll-ups

### Document management capabilities

- Document libraries
- Metadata
- Views
